PROFESSIONAL SUMMARY

Telecom/Software Engineer with 10+ years of experience across Development, Operations, and Integration, including 7+ years in Ruby on Rails and 3+ years as an Ericsson Certified Consultant. Skilled in Ruby, Python, Elixir, JavaScript, and React, with experience in modular monoliths, microservices, AI-assisted development, OSS/BSS, scalable systems, CI/CD, mentoring, and international collaboration.

OBJECTIVE

Software Developer (Backend and Fullstack).

CORE STRENGTHS

7+ years
Ruby on Rails

Microservices &
event-driven
architecture
(Kafka)

AI-assisted /
agentic
development
and code quality

OSS/BSS and
enterprise
systems
integration

CI/CD, DevOps,
Docker,
Kubernetes

Mentoring and
technical
leadership

International /
multicultural
experience

KEY SKILLS OVERVIEW

</> LANGUAGES

Ruby, Python, Elixir, JavaScript, Java, Erlang/OTP

FRAMEWORKS

Ruby on Rails, React, Vue, Phoenix

ARCHITECTURE

REST, GraphQL, Modular Monolith, Microservices, DDD

DATA & INFRASTRUCTURE

PostgreSQL, MySQL, Oracle/PLSQL, Redis, Docker, Kubernetes, AWS

TESTING & QUALITY

RSpec, Minitest, PyTest, JUnit, Brakeman, RubyCritic

LANGUAGES

- English: Advanced
- Spanish: Intermediate

Extensive international exposure working with global teams and clients across Europe, Latin America and Asia.

PROFESSIONAL VALUE / PROFILE TRAITS

- ✓ **Innovation:** Embrace new technologies and AI to deliver smart solutions.
- ✓ **Integration:** Connect systems and people to create efficient outcomes.
- ✓ **Problem Solving:** Analytical mindset with strong troubleshooting skills.
- ✓ **Collaboration:** Communicative, adaptable and team-oriented.
- ✓ **Mentorship & Delivery:** Support teams to grow and deliver with quality.

Being smart won't mean a thing if you don't make the **WORLD** a better place.

PROFESSIONAL EXPERIENCE, EDUCATION & CREDENTIALS

Selected experience, certifications, education, and continuous learning.

PROFESSIONAL EXPERIENCE

Zoatworks

Consultant / Freelance | 06/2013 – Present | São José dos Campos, Brazil (On-site, Remote)

- Built an event-driven Ruby on Rails microservice with Kafka to orchestrate student subscription workflows and external API integrations.
- Integrated AI-assisted development into GitHub workflows.
- Used AI and code-quality tools to audit Rails technical debt and prioritize modernization.
- Developed scalable backend services using Ruby, Elixir, and Erlang.
- Delivered SAP and Oracle PL/SQL integrations, supported Ericsson OSS/BSS environments, and provided PLEX technical training.

Selected projects: Anubis/CX (Qeevo), PicPay (IEBT), Track Server (ITER), Adalive (Lab360), Unicom Market Design (INATEL/China), Taxweb Auditor (GSW), OSS Support (Entel), Ericsson Technical Training (Solutec).

Encora

Senior Ruby on Rails Engineer / Systems Specialist | 06/2021 – 09/2024
| Campinas, Brazil (Remote)

- Developed scalable HR and Payroll applications with Ruby on Rails, React, and GraphQL.
- Led a web tool initiative to upload burst files to S3 using Redis and Sidekiq Pro.
- Modernized ERP interface pages with React.
- Maintained modular monolith integrations with Packwerk.
- Contributed to cloud and edge projects using StarlingX and OpenStack.
- Led technical interviews, mentored junior developers, and built integrations with Slack, Jira, Zendesk, and SendGrid.

Selected projects: WRCP (Wind River / StarlingX), PEO System (Justworks), Time Tracker (Justworks).

InMov

Senior Ruby on Rails Engineer (Fullstack) | 07/2018 – 06/2021 | São Paulo, Brazil (On-site)

- Developed Smart City applications with Ruby on Rails, JavaScript, jQuery, and Ajax for public sector solutions.
- Led Rails upgrades from 4.2 to 6.0 to improve performance and security.
- Built Site Rails Manager, a Bash/Docker CLI toolkit that standardized Ruby on Rails development environments and workflows.

Selected projects: City Hall Permit System, Site Rails Manager.

Ericsson

Software Developer / Solution Integrator / Project Manager | 12/2004 – 06/2013
| Indaiatuba, São Paulo, Brazil (On-site)

- Developed and deployed telecom systems in large-scale environments.
- Led international OSS/BSS projects across LATAM, USA, Canada, and Europe.
- Built MOP Automation, improving productivity by 300% through automation of deployment and integration workflows with Ruby and Rake.
- Delivered training and knowledge transfer in international projects.

Selected projects: BSS Dualstack/Fullip-Rehoming, MOP Automation, Revenue Assurance, OSS/BSS Upgrades and Support.

EDUCATION

1998 Datacom (Extension Courses)
USP

1994 Software Engineering
(Postgraduate)
UNIVAP

1985 Telecom/Electronic Engineering
(Graduate)
INATEL

CERTIFICATIONS

2013 SAP Integration Certification
Softway

2008 Solution Integrator Experienced
Certification (Job Stage 5)
Ericsson

Ericsson Certified Consultant /
Solution Integrator (3+ years)

COURSES & CONTINUOUS LEARNING

2026	Claude Code: The Complete Course	Udemy
2026	GitHub Copilot CLI	GitHub
2025	AI Automation	Udemy
2025	MCP Crash Course	Udemy
2025	Working with Vue 3 and Go	Udemy
2025	Working with Microservices in Go	Udemy
2025	GitHub Copilot	Udemy
2023	Metaverse	Coursera
2019	Elixir & OTP	The Pragmatic Studio
2018	Elixir: Scalable and Efficient Application Development	Udemy
2017	Specialization in Erlang Programming	Kent University, FutureLearn
2016	Specialization in Ruby on Rails Web Development	Johns Hopkins University, Coursera
2015	Web Applications Architectures	University of New Mexico, Coursera
2014	Specialization in Data Science	Johns Hopkins University, Coursera
2010	Ruby on Rails Advanced	Caelum
2010	Ruby on Rails	Caelum

TECH & TOOL STACK

Being smart won't mean a thing if you don't make the **WORLD** a better place.
